**Subject:** Sharing Information for "A closed-loop approach for tracking a humanoid robot using particle filtering and depth data"

**SPRINGER NATURE**

---

Congratulations on publishing.

As part of the Springer Nature SharedIt initiative, you can now publicly access a full-text view-only version of the paper "A closed-loop approach for tracking a humanoid robot using particle filtering and depth data" in *Intelligent Service Robotics* by using the link below. If you can view content via a personal or institutional subscription, you will also be able to download and print the PDF. All readers via the shared link will also be able to use Enhanced PDF features such as annotation tools, one-click supplements, citation file exports and article metrics.

<http://rdcu.be/s1RE>

There are no restrictions on the number of people you may share this link with, how many times they can view the linked article or where you can post the link online.

More information on Springer Nature's commitment to content sharing is available [here](#).

Sincerely,  
Springer Nature

The [Springer Nature SharedIt Initiative](#) is powered by  readcube technology.
